PETITION AGAINST DUSEL

To: Chelan County Commissioners
City of Leavenworth Mayor and Council
U.S. Forest Service, Leavenworth District Ranger

We, the undersigned, ask that you help us preserve the high quality of life in the Leavenworth Valley and Icicle Canyon. We are firmly opposed to the proposed Deep Underground Science Lab being located in Icicle Canyon due to the profound negative impacts it would have upon the peace, beauty and tranquility of our valley. The construction would take too long and be destructive to the quality of life we value.
